Angel Paul

Data Scientist @ CorrosionRadar | MSc Data Science UoM
Graduate | Deans Awardee '24 | Ex- Business Analyst @ Shell |
Python | SQL | ML
Cambridge, England, United Kingdom

Summary

Data Scientist at CorrosionRADAR

Driven by a deep curiosity and a love for solving complex problems, I currently work as a Data Scientist at CorrosionRADAR, where I support cutting-edge predictive analytics to improve asset integrity and industrial sustainability. My path blends rich experience across industrial analytics, healthcare AI, and business intelligence, from Shell and Dell Technologies to impactful academic research.

Educational Background:

Graduated with Distinction from The University of Manchester (MSc Data Science), awarded the Dean's Award for Excellence and the Global Futures Scholarship. My academic foundation covers machine learning, data engineering, computer vision, and text mining, backed by a strong Bachelor's in Computer Science.

Core Competencies:

- Languages & Tools: Python, R, SQL, ArcGIS, Office 365, Docker
- Data Visualisation and BI: Power BI, Tableau
- Cloud Platforms: AWS, GCP
- Machine Learning and Deep Learning: Feature Engineering, Statistical Modeling, Neural Networks, LLMs, Ensemble Methods, Time Series Forecasting
- Soft Skills: Strategic Thinking, Change Management, Business Acumen

Highlights:

- Building clinical NLP models using LLMs with ~99% PHI detection accuracy for NHS datasets
- Led safety enhancement initiatives at Shell, reducing incidents by 25% using data-driven checklists

- Streamlined 35,000+ spend rules at Dell, removing redundant 23% to improve performance

Experience

CorrosionRADAR

Data Scientist

March 2025 - Present (7 months)

Cambridge, England, United Kingdom

Shell

Junior Business Analyst

August 2022 - August 2023 (1 year 1 month)

Bengaluru, Karnataka, India

- Gathered requirements from clients and collaborated with developers, QA test engineers, and other stakeholders to create detailed functional specifications. Demonstrated strong client interaction skills.
- Acted as the interface between clients and the technical team, ensuring clear communication and understanding of project requirements.
- Managed multiple projects to ensure delivery within agreed time scales, conducting acceptance testing and providing training to clients. Utilized strong problem-solving abilities to overcome challenges and ensure successful project outcomes.
- Drove comprehensive data impact assessments (PIA, LRA, and BIA) for various projects to safeguard and quantify benefits for data platforms and the business.
- Prepared source-to-target mapping documents, identified data sensitivity in data activities, and successfully deployed two key projects, overseeing a total of 6 clients.

Dell Technologies

Data Analyst Intern

March 2022 - July 2022 (5 months)

Bengaluru, Karnataka, India

- Understand the retail system to perform spend classification, build Excel reports, identify the loopholes, and clean up the system by reducing the redundant data by 23.33% to improve the performance and efficiency.
- Automated the manual process of placing misclassification requests for wrongly classified spend, showcasing a flexible approach to improving data accuracy and operational efficiency.

Samsung R&D Institute India

Research Intern

September 2021 - April 2022 (8 months)

Bengaluru, Karnataka, India

- Implemented machine learning models such as Bidirectional LSTM, CNN, LSTM-Autoencoder, One-class SVM, Isolation Forest, Local Outlier Factor, and GAN to detect out-domain utterance by training the model with in-domain data, of which Bidirectional LTSM showed the best results with 79.15% accuracy.
- Conducted thorough data preprocessing and analysis to ensure the quality and accuracy of training data.
- Presented findings and provided actionable insights to senior stakeholders, improving project outcomes.

SACHA

Developer Intern

August 2021 - August 2021 (1 month)

Bangalore Urban, Karnataka, India

Worked with Office 365 apps(Share Point, power apps, power automate), build web-parts for live projects.

The Rising People welfare society

Frontend Web Developer

July 2020 - August 2020 (2 months)

Delhi, India

- Designed, implemented, and monitored responsive web pages for the organization
- Played a major role in conducting awareness campaigns and fundraising events to support the kids in the orphanage financially

Education

The University of Manchester

Master's degree, Data Science(Computer Science Data Informatics) · (September 2023 - September 2024)

Ramaiah Institute Of Technology

Bachelor of Engineering - BE, Computer Science · (August 2018 - July 2022)

Mount Carmel College, India
